

What this course builds

The course is designed as a practical path: learn the concept, see its market context, then apply a

01

Business and industry analysis

Read how businesses make money, compete and create durable advantages.

02

Financial statements and ratio analysis

Use company data to understand quality, profitability and financial strength.

03

Valuation and margin of safety

Estimate intrinsic value and make room for uncertainty in every decision.

04

Portfolio construction and live company analysis

Turn research into a balanced, goal-led investment process.

How you learn

01

Structured concepts

Build the language and framework before making decisions.

02

Guided examples

Connect every idea to a market situation and a clear next step.

03

Practical application

Use the framework to form calmer, repeatable decisions.

Benefits of learning this path

+ Evaluate a business beyond the headline

+ Use financial data with confidence

+ Build a long-term investment thesis
